Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Copy of Patent

1. The original patent, or an affidavit or declaration as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

Reissue Applications

2. Claims 74-118 are rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter surrendered in the application for the patent upon which the present reissue is based. See *Hester Industries, Inc. v. Stein, Inc.*, 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984). A broadening aspect is present in the reissue which was not present in the application for patent. The record of the application for the patent shows that the broadening aspect (in the reissue) relates to subject matter that applicant previously surrendered during the prosecution of the application. Accordingly, the narrow scope of the claims in the patent was not an error within the meaning of 35 U.S.C. 251, and the broader scope surrendered in the application for the patent cannot be recaptured by the filing of the present reissue application. The subject matter previously surrendered during the prosecution of

the application includes the ***T-shaped*** structure and the ***adjustment assembly selectively movable to vary the relative positions of the first and second faces*** to eliminate looseness which may exist in mounting said wear member as set forth in amendment A.

New Matter

3. The amendment filed 10/10/01 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The limitation of "a mount" claims 74, 91, 114, 115, "a one-piece boss" claims 103, 111, and "a coupling slot" claim 103.

Applicant is required to cancel the new matter in the reply to this Office action.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

74-80, 84-87, 111, 112, 103-110
113, 114
5. Claims 74-87, ~~91-99, 103, 107, 114~~ are rejected under 35

U.S.C. 102(b) as being anticipated by Jones (5,088,214).

Jones '214 discloses a wear assembly having all of applicant's claimed structure including a mount (considered boss 29), a wear member including a second shoulder and an opening, and a lock 38 received in the opening in the wear member to prevent disconnection of the first and second shoulders and thereby retain the wear member to the mount as shown in figure 10. Jones '214 also discloses a keeper assembly 45.

6. Claims 88-90, ~~100-102, 104-106~~, 115-118 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jones (5,088,214) in view of Jones et al. (4,433,496).

Jones '214 discloses a wear assembly having essentially all of applicant's claimed structure as described previously, but lacks the lock including an adjustment assembly movable to tighten the fit of the lock between the wear member and the mount.

Jones et al. '496 teaches that it is known in the art to use a lock including an adjustment assembly movable to tighten the fit of the lock and eliminate looseness in the wear assembly.

It would have been obvious to a person of ordinary skill in the art at the time the invention was made, to modify the wear assembly of Jones (5,088,214) by using a lock with an adjustment

assembly as taught by Jones et al. '496, to eliminate looseness in the wear assembly.

Allowable Subject Matter

7. Claims 1-73 are allowed.
